Hamilton Horizons Credit Union Messaging Analysis

Hamilton Horizons Federal Credit Union Brand Identity Analysis

Overview

Dedicated to serving the community of Hamilton Township, New Jersey, Hamilton Horizons Federal Credit Union provides its more than 3,300 members with a full range of checking, savings, investment and loan services.

Founded in 1955, the institution adopted a community charter in 2000, making all residents and employees in Hamilton Township eligible for membership.

With a potential membership pool of nearly 88,000 residents (according to Year 2000 United States Census Data), the institution would appear to have an opportunity for significant growth. The organization currently faces a series of challenges, however, which could impede its progress.

The purpose of document is to summarize and analyze Hamilton Horizons' prospects for growth in the classic marketing S.W.O.T. terms of **Strengths, Weaknesses, Opportunities and Threats**.

Following this summary, we will offer some potential brand identity and creative direction concepts we feel could help Hamilton best promote its positive attributes – while negating some of the perceived advantages of existing competitors.

Strengths

As far as we know, Hamilton Horizons Federal Credit Union is the only full service financial institution solely dedicated to serving the residents and employees of the Township – making it the only locally based, locally owned, locally run – and locally focused institution in the area.

Being a Credit Union, the organization can also offer significant advantages over banks, such as higher investment rates, low or no fees and a far more personalized degree of service. In addition, Hamilton offers such modern conveniences as online banking & coin counting.

Hamilton also boasts an extremely experienced staff with a remarkably low level of employee turnover (the least experienced employee having been with the organization for more than four years).

This undoubtedly translates to an enormous wealth of knowledge about individual members, the financial opportunities the credit union can offer and the local community.

Where people are worth more than money.
